ARE YOU READY TO JOIN IGP?
**WE'RE LOOKING FOR STUDENTS
WHO...**

Think critically and creatively
Appreciate diversity
Are curious and research-minded
Excel in math and science
Love a challenge

COLLEGE OF ENGINEERING

Innovative Global Program

RESEARCH-BASED LEARNING IN
ENGLISH (HONORS PROGRAM)

BACHELOR OF ENGINEERING DEGREE

Become a Global Engineer in Tokyo

Why Choose Us?

“

A new model of engineering education in Tokyo

”

Active, research-based learning in a multicultural environment

Multidiscipline

&

Multiculture

Applied Chemistry

Computer Science

Electronics Engineering

IGP
MAJORS
*18 LABS

Mechanical Engineering

Materials Science

Engineering Education

IGP PROGRAM FLOW

YEAR 1

Foundation and Skills

- Lab-based research practice
- Hands-on skill development
- Courses in science, mathematics, computer science, and communication

YEAR 2

Exploration and Direction

- Lab rotation opportunities
- Introduction to various engineering fields
- Start of specialized coursework

YEAR 3

Research Exploration

- Graduation research at an accelerated pace
- Advanced specialized courses
- Opportunity for overseas study (months to 1 year)

YEAR 4

Presentation & Global Exposure

- Present research at international conferences
- Attend career-related seminars

Post Graduation

- Direct admission to SIT graduate school (via recommendation)
- Global pathways for study or industry careers

Career Achievements of IGP Graduates

Employment

- **Nittoku Co. Ltd.**
(Machinery Manufacturing Company)
- **Nittobo Co. Ltd.**
(Fiber Glass and Materials Manufacturing Company)

Higher Studies

- Shibaura Institute of Technology
- Institute of Science Tokyo
- Keio University
- Carnegie Mellon University (USA)
